Jocelyn Long- Downingtown (PA) STEM Academy
Danielle Meyer- Washington-Lee High School APS

Discussion Bullet Points

Changes between old syllabus and new. What is new to teach and what is the same, but under a different heading?

- Options used at SL and HL.

- Changes to the assessment scheme and application of said scheme

- Changes to the assessments of IAs, now called Teacher Directed Activities

Support- Texts used to Support Course. There are none for the new syllabus, but most of the Design & Technology by Metcalfe and Metcalfe (Ibid Press) still applies. They are supposed to have a new addition for this in a year or so.

The majority of the time was spent applying new assessment scheme SL and HL projects.

- Examples were provided and participants graded these with the new grading rubrics with particular attention to the inclusion of marketing.

- Discussed use of support materials and use of annotation in student submissions.
