

Goal: To bring together MYP Math educators to share knowledge on creating assessments, and using the criteria to score assessments for Algebra 1 and 2 and Geometry. Through this networking session, MYP teachers will gain familiarity with assessment rubrics and general language for MYP Math.

FYI: Wireless Access:

Non-FCPS devices can connect to the “FCPS” wireless network.

Once connected, open a browser. You should be re-directed to the Acceptable Use Policy (AUP) page. Once you accept, you will have full access to the internet.

Agenda

9-9:30 **Breakfast!**

9:30-10:30 **Introductions, Goals, Discussion of Inquiry-Based Instruction in Math**

Where do you teach? What math and what grade levels?

What do you hope to gain from today’s session?

TED Talk: Dan Meyer: <http://goo.gl/RDdL>

What does an MYP (inquiry-based) math classroom look like?

What will teachers be doing? What will students be doing?

10:30-10:40 **Break**

10:40-11:40 **Break Outs by Subject/Level: Assessments and Rubrics**

In groups, you have time to share and/or modify existing assessments and possibly create one. You can also score a sample assessment and discuss your scores and those given by MYP.

11:40-11:50 **Break**

11:50-12:50 **Working Lunch: Break Outs by Subject/Level: Unit Planning and Aligning MYP with CCSS, SOLs, and district standards**

In groups, you have time to share or modify unit planners or create one, taking the New Chapter concepts into consideration. You might also want to discuss how you incorporate MYP with your state and district standards.

12:50-1:00 **Conclusion and Reflection**
