

Creating a PDP

Program Standards

Purpose-
Sharing an important mission

Environment
Providing essential structures, systems and resources

Leadership and governance
Student support
Teacher support

Culture
Providing positive student cultures
culture through policy implementation

Learning
Ensuring effective education
Designing a coherent curriculum
Students as lifelong learners
Approaches to teaching
Approaches to assessment

Selecting a PDP

- This is Part 2 of the self-study questionnaire.
- the school selects one of these plans to share with the IB

Step 1 – Program Development Plan-Planning

Identify

- Focus/Question (inquiry)
- Challenge
- Goal to be achieved
- Rationale

Step 2- Program Development Plan -Planning

IB Practices

Identify one or two practices associated with the question

Select practices from at least two categories of the PSP framework

Conditions ? Practice that sets the conditions (environment)

Who ? Practice that shows who (learning)

How ? Practice that indicates how (culture)

Why? Practice that indicates why (purpose)

Step 3 – Program Development Plan - Planning Impact

Impact

What will change for students ?

Data and Evidence

What data or evidence will reflect the impact of the work ?

Step 4 – Program Development Plan– Implementation and Analysis

What activities will lead to the outcome ?

Examples that evidence the impact on students ?

Step 5- Understanding and Application

Summary

- what did you learn

- what factors led to having/not having an impact on students

Further or future considerations

- what did you learn that could be applied to future development

Priorities for programme development

- what areas will the school now prioritize for development

Identifying Standards and Practices

- will have four (4) to eight (8) practices as part of it (from 2 different standards)
- should start with:
 - where you are as a school
 - where you want to be
 - how do you get there?
 - who will do it?
- is meant to help a school go beyond the requirements to positively impact student learning

Some Ideas for Programme Development

- **Learners** (agency, IB learner profile, service/action, academic integrity, well-being)
- **Learning and teaching** (approaches to learning, approaches to teaching, inquiry, conceptual understanding, local and global contexts, teamwork and collaboration, access, learning diversity, inclusion, assessment, curriculum, multilingualism and identity)
- **The learning community** (collaboration, international-mindedness, leadership, learning environments, technology)

Practice Using the Template

- You can use the IB Motif Builder Ap
